

Through research, education and family support, we have

**ONE MISSION: END AHC**

Thank you for your support of the AHC Foundation. AHC is an extremely rare disorder. It is characterized by unpredictable, often painful episodes that leave a child temporarily paralyzed, either partially on one side or on both. The episodes can range in duration from hours to weeks. These debilitating episodes can be triggered by factors such as light, water or stress just to name a few. Progress has been made in understanding the cause of this disorder but much work remains in developing treatments and ultimately, a cure. Your support can make all the difference as we work together to make life better for these kids and their parents. Thank You from all the AHC Kids!

Your generous donation will be used to raise awareness of this disease, maintain a network of support for families of AHC patients and fund the research necessary to eventually fulfill the mission of our community; to END AHC.

**Donation Amount (in U.S. Dollars)**

\$10    \$25    \$50    \$100    \$250    Other \$ \_\_\_\_\_
